

Get a Lower Copay with a Tier 1 Provider

Standard Option

You pay a lower copay when you choose a Tier 1 Provider for your primary care or specialist visits.

What is a Tier 1 Provider?

Tier 1 Providers are a subset of Premium Care Physicians. These providers meet quality-of-care criteria, including providing high value care that is safe, timely, effective, and efficient.

All Tier 1 Providers are Premium Care Physicians, but not all Premium Care Physicians are Tier 1 Providers.

How do I find a Tier 1 Provider?

TIER 1 Look for the blue dot that says **Tier 1** when using our Provider Directory. To make it easy for you to find Tier 1 Providers, they will appear at the top of your search results when available in your area.

To receive the lower copay, you must see a Tier 1 Provider. A provider listed only as a Premium Care Physician does not qualify for the lower Tier 1 copay.

Note: Lower copays for Tier 1 providers are not available to members enrolled in or eligible for Medicare.
